To Whom It May Concern,

It is my pleasure to write this letter of recommendation for Mrs. Andria Dotson as she is a finalist in your teacher of the year competition. I have worked with her this past two years as our schools' Certified Nursing Assistant instructor. She came to us after many years working as a nurse with great experiences in the field.

Mrs. Dotson has been one of the most natural teachers I have been around. She has only been teaching for two years, but acts like a veteran in front of her students. She helps students understand very difficult subjects by breaking them down, and making the classroom fun. Her students would run through a brick wall for her, even if she just suggested it.

Andria has also been a leader with other teachers. She is willing to share her knowledge with others, help students that are not in her classes, and take leading roles when we have different projects and assignments as a school. When she does take the lead things are done in an amazing manner. Her work is very professional.

She is a teacher I am so happy to have on my staff, and with confidence can tell you that you would be a great selection as teacher of the year. Please feel free to contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Craig Miller".
