

To whom it may concern:

Andria Dotson is a wonderful teacher, and as a former student I have experienced the many things that make her the teacher that she is. I understand that Andria has been nominated as a candidate for the teacher of the year award and I would highly recommend her for the award. I believe that any student who has the privilege to take a class from her is a student that will be more prepared for their life after high school.

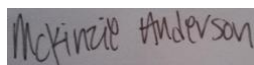

As I am sure you know, Andria teaches Health Professions 1 and Health Professions 2. These classes are classes that teach student about the human body and first aid. The second-class Health Professions is the class that I had the privilege to take from Andria. Health Professions 2 was my favorite class my junior year and has benefited me greatly. At the end of this class I received my CNA (Certified Nursing Assistant) license and because of that I have gained valuable work experience that I would not have otherwise had. With the help and teaching of Andria I received my CNA and have since been accepted into the nursing program at CEI for the Fall of 2020. Although Andria was my teacher, she has also become a close friend.

Andria has a personality that is easy to get along with and is able to control her classroom with compassion and skill. The summer before my junior I was chosen to be able to participate in the CNA class with Andria. I then ended up having to have brain surgery before school started. I thought that I was going to have to drop out of the class but Andria was willing to work with me to be able to participate. She helped me with my schedule so that I could attend her class, and when I had complications during the year, she worked with me to be able to reschedule my clinical hours so that I could still qualify for my license at the end of the year. She also checked on me to make sure that I was okay and if I needed anything. She is willing to do anything that she can to help her students succeed in any way that she can. She goes above and beyond the "call of duty" in everything that she does. She runs the code team, she runs the HOSA club and she is a teacher. One with the heart of a mom and a determination that is. She loves all of her students and is always there for them.

Since completing her class my junior year, we have stayed close and I know that she is a perfect candidate for the Teacher of the Year Award. I hope that the things that I have shared with you will help you to make a decision in who receives the award this year.

Sincerely,

McKinzie Anderson
