To Whom It May Concern:

I have known Andria Dotson professionally for over 5 years. While I worked with Andria at Eastern Idaho Regional Medical Center, she was not just a technically competent and professional wound care nurse, but a bright, positive, and emphatic nurse when caring for all her patients. She worked very well as a team member and volunteered for assignments when the need was present.

As a CNA Instructor, Andria is prepared with her lessons and motivates and inspires her students to succeed. She challenges them and continuously looks for improved methods to teach her students.

Andria will bring value to any organization. Andria is a very skilled and professional individual and I strongly recommend her as both a professional nurse and CNA Instructor.

Sincerely,
